

## Description

Peter Meijer Architect, PC, is currently seeking a Senior Architect with 6+ years of technical architectural experience, with a strong commercial, civic, and educational project background to join our Portland office. PMA is an architectural firm specializing in building envelope sciences, planning, and design for historic and existing properties.

## Responsibilities

- Project leadership through all project phases (from pre-design to project close-out).
- Manage projects on a day to day basis
- Prepare accurate technical documents & architectural REVIT drawings: building envelope assessments, construction documents, as-built drawings, etc.
- Zoning & Building Code Review.
- Internal & external team and project coordination and communication.
- As a project leader, responsible for project process, schedule, and quality control.

## Qualifications

- Minimum of 6+ years of technical architectural experience
- Licensed architect (Oregon, Washington preferred)
- REVIT skills
- MS Project Proficiency
- Experience taking lead role in document development and quality assurance
- Strong communication and writing skills
- Self-motivated, detail-oriented and organized approach to work

## How to Apply

Qualified and interested candidates please submit a letter of interest and resume with relevant portfolio to [info@pmapdx.com](mailto:info@pmapdx.com) Limit to 10mb, no zip files. No phone calls.

We are an equal opportunity employer and welcome diversity in the workplace.
